

ANNUAL REPORT 2022-23

The Session, i.e. 2022-2023, in spite of all the hurdles, has been a session of achievement for PRANABANANDA VIDYAMANDIR, BHARAT SEVASHRAM SANGHA, LUMDING.

This Annual Report is part of a commitment to greater transparency and accountability. The last few years have seen a sea change in the way the school thinks and plans for the future. PVM has ambitious plans for the future and we need the support of everyone who cares for the school in order to make them a reality.

We are proud to have a good number of dedicated teachers' team, working for this temple of learning since its inception. As the institution grew, many teachers and other staff members have joined the PVM family to give it their best. We salute all the staff members for their continuous support.

➤ ESSENTIAL CONDITIONS:

Our school is affiliated to Central Board of Secondary Education (CBSE) with the affiliation number 230073. The school is under the aegis of an internationally acclaimed Socio-Cultural & Philanthropic Organization, Bharat Sevashram Sangha, Lumding Branch. Our teacher student ratio is 1:22 which is very much conducive for teaching learning activities ONLINE / OFFLINE.

❖ COMPUTER LABS:

Two (2) Computer Labs with 30 computers in each lab. Every PC is running with the support of N-Computing. And one Projector is also there to demonstrate the Practical.

❖ SCIENCE LABS: PHYSICS, CHEMISTRY & BIOLOGY:

PVM can brag of impeccable and well maintained science labs, namely, the Physics, Chemistry, Biology and Mathematics which are mostly used by the secondary and senior secondary students. These are fully equipped with every kind of modern apparatus required for the AISSE & AISSCE Practical Examination as prescribed by the Central Board Secondary Education. The labs are also well stocked with models (static and working), charts and other specimens required for the proper understanding of the Science subjects and Computers.

PHYSICS LAB:

“Newton won a stunning victory for the intellect and the democratization of science, because it became possible for students to have as much authority as teachers. By knowing proper methods, a youth could conduct an experiment whose results might confound his elders.”

To ensure safe laboratory work for students, the school has well equipped and up-to-date equipment in the Physics lab, especially for the students of classes IX to XII. The lab has all the necessary equipment and apparatus. The practical is done as per the schedule planned and displayed in the lab.

BIOLOGY LAB:

The Biology lab is well equipped with all the basic facilities for the students up to Class XII. We have a very good collection of bottled specimens, prepared slides, stuffed materials, charts, etc. Our lab is also enriched with microscope, PH meter, human skeleton, etc. All these materials are arranged systematically inside the lab and are within the reach of the students.

❖ MATHEMATICS LAB:

Mathematics Lab provides infrastructure for transforming theory taught in class into practical. This results in better understanding and clearing the concept.

The School has an updated Mathematics Lab where children experiment & participate as active learners. They develop problem solving ability and able to remove all fears & phobias.

Students could put up individual puzzles relating to:

1. How to divide the circle in 4 parts
2. Find your age.
3. Find percentage-using graph.
4. Subtraction with scales.

❖ **ATAL TINKERING LAB:**

Atal Tinkering Laboratory is a work space where young minds can give shape to their ideas through hands on do-it-yourself mode; and learn innovation skills. Students will get a chance to work with tools and equipment to understand the concepts of STEM (Science, Technology, Engineering and Math). ATL would contain educational and learning „do it yourself“ kits and equipment on – science, electronics, robotics, open source microcontroller boards, sensors and 3D printers and computers. Other desirable facilities include meeting rooms and video conferencing facility. Under ATL we have conducted various activities & workshops since the commencement of this lab in our school.

Once the school re-opened, the ATL Tinkering Fest was organized in school and students from different schools participated with great enthusiasm. The objective of ATL Fest is bringing out the hidden talents of students with a focus on creating more awareness and science technology and engineering and into foster curiosity, creativity and imagination in young mind and inculcate skills.
